**NEW JERSEY COMMUNITY FORESTRY PROGRAM
COMMUNITY FORESTRY MANAGEMENT PLAN
LIST OF RECOMMEND CONSULTANTS**
Updated on October 18, 2011

Pursuant to P.L.1996, c.135 (C.13: 1L-17.1 et al.), the New Jersey Forest Service. Community Forestry Program maintains a list of Recommended Consultants to assist municipalities in writing and implementing an approved Community Forestry Management Plan in accordance with the Guideline standards and the New Jersey Shade Tree and Community Forestry Assistant Act.

To be included on the list as a Recommended Consultant for writing a Community Forestry Management Plan, the consultant must have attended a Community Forestry Program Workshop on how to write a Community Forestry Management Plan, or must have written a State Approved Community Forestry Management Plan.

This list was created through the New Jersey Community Forestry Program and the New Jersey Community Forestry Council as a service to aid and assist communities as they work to reach Approved Status under the New Jersey Shade Tree and Community Forestry Assistance Act. The list is distributed to help municipalities find consultants that are familiar with the Community Forestry Program and with the New Jersey Shade Tree and Community Forestry Assistant Act and Guidelines for a Community Forestry Management Plan. Each municipality must work to form a relationship with their consultant to create a plan and a program that is unique to their community, and meets the community's specific needs.

NOTE: This list was created as a service for New Jersey municipalities, however it is not required that Municipalities use a consultant from this list to write their Community Forestry Management Plan.
